IIA Project - AI Chat History Links

Project: Identification of Uninsured Vehicles
Generated: 2026-09-17 19:48

This PDF lists the complete/relevant AI conversations used for the project.
Evaluators: open each link below (must be publicly accessible).

1. External AI chats (already shared)

1. Claude (project chat)

https://claude.ai/share/ef26816a-0ead-43f7-a3f5-175094426e36

2. ChatGPT (project chat)

https://chatgpt.com/share/6aabc4ab-6cb0-83ee-b29b-f776183ea9a0

2. Cursor AI chat (this project)

Primary Cursor agent conversation covering ETL, warehouse dashboard, Docker/theft source, teammate push/ingest, analytics UI, PDF/CSV export, and viva demo seeding.

Public share link (paste after creating Share -> Public in Cursor):

PASTE_CURSOR_PUBLIC_SHARE_LINK_HERE

How to make the Cursor link accessible to evaluators:
1. Open this chat in Cursor.
2. Click the Share icon in the chat header.
3. Choose Public (anyone with the link).
4. Copy the URL (cursor.com/s/...). Set CURSOR_SHARE_LINK in build_submission_pack.py and re-run, or write the link on this PDF.
5. Also: right-click chat tab -> Export Transcript (.md) if Share is unavailable.

A full local transcript is in submission_pack/Cursor_Chat_Transcript.md inside the zip for complete history.

3. Codebase zip

Full project zip path:
C:\Users\vikra\Downloads\Identification-of-Uninsured-Vehicles\Identification-of-Uninsured-Vehicles_CODEBASE.zip

Submit this zip together with this PDF and all AI share links.
